**PULASKI, TENN.,**  
FRIDAY MORNING, JUNE 15th, 1866.

**Taxes.**  
We have made this number of the paper more useful to the tax-payer than interesting to the general reader. The instructions on our first page should be preserved.

**To the Maimed Confederates of Giles.**  
Arrangements have been made to supply you with artificial limbs without delay.—You have only to apply to the Vice President of the Giles County Benevolent Society who will supply you with the necessary means and information.

**P. S.**—For the information alluded to, apply at this office immediately.

**Central Southern Railroad.**  
We take great pleasure in announcing to our readers that, under the energetic management of the superintendent and directors, permanent bridges over the streams crossed by this road are all completed, and that the bridges themselves are the finest structures of the kind to be found made of wood. The temporary structures being thus superseded by such bridges, we may hereafter dismiss all apprehensions of interruption after from the sweeping away, by floods, of the trestle bridges with which we have so long been taxed. The motive power and the rolling stock belonging to the Nashville and Decatur Railroad line are all of the best kind, and ample to do any amount of work which may be required.

The future of this road we regard as encouraging. The entire line of communication, extending south to Selma and Montgomery, is let to contract, and in a few years will be completed. When this is done we will have the grand trunk railroad to the gulf passing through the heart of our county and State, rendering all investments in the stock of the Central Southern equally profitable, if not more so, with the stock in the Memphis and Charleston, or any other railroad in the south.

**Reflections—Schools.**  
In a few years more the little boys, whom we meet every day in the streets with their kites, marbles and return balls, will be called upon to act their parts as men in the drama of life. The time is swiftly approaching when the reins of government will be given over into their hands. Only a few fleeting years will pass before the little girls of to-day will be matrons—themselves the guardians and instructors of youthful minds. How important then that our youth, of both sexes, should now be receiving that educational training which will fit them for the important and responsible duties so soon to devolve upon them—duties to themselves, duties to society and duties to their God.

Have our readers reflected how sadly education is neglected in Pulaski? There are no educational facilities here, and, until recently, no disposition has been manifested on the part of our citizens to create any. We learn with pleasure, however, that there is now some interest felt in the matter, and the question of raising by subscription a sum sufficient to build a female college, and a similar sum to rebuild Giles College, is being discussed. We understand that from a full canvass of the matter among the parents and guardians of the community, the probabilities are that twenty-five thousand dollars could be raised at once for the purpose of erecting the necessary buildings for a Female School. Every man and woman is interested in this matter, and it is presumed that every man, in subscribing liberally in so laudable an enterprise, will feel that he is casting bread upon the waters, to be gathered again.

The duties we owe to our children, the interest we should feel in the growth and prosperity of our town, to say nothing of individual interests, pecuniary and social, all demand that the books be immediately prepared and opened. Let an educational meeting be called at the court house, and the work commenced at once. Such a call emanating from the Mayor would be very proper, especially if he were backed by the Board of Aldermen with an appropriation of several thousand dollars, or a resolution to submit such a proposition to a vote of the corporation.

**Good Workmanship.**—Persons who design building this summer should examine the carpenter's work on Mr. G. W. Petway's residence, which is now about completed. The work was done by Sam'l. C. Mitchell & Co., who are not only fine workmen, but prompt, industrious, sober gentlemen.

Commissioners of Registration have been appointed for all the counties in Middle Tennessee, except Giles, Lincoln and Marshall. We presume the Governor regards these counties loyal enough to get along without such a guardian. Or maybe there is not a man in either of the counties loyal enough to accept office at the hands of our patriotic governor? Oh, shame on such a peevish! William R. Cannon has been appointed Commissioner for Maury, and Wm. P. Pickard for Lawrence.

**ALVIN.**—It appears from a communication in this paper, that ALVIN was really not the author of a communication in the last paper attributed to him. Our friend seems to be offended at the liberties Concilium and Alvin 2d have taken with his writings and his name. We are sorry for this. He should remember that all writers for the press are responsible to the public and liable to criticism. Concilium did not write his criticism in any factious or malicious spirit, but for the purpose of checking to some extent, and in the mildest manner possible, the growing indifference of newspaper writers to the rules of grammar and good spelling; and to rap the entire community across the knuckles, en parenthesis, for its wonderful inactivity in all branches of improvement. Neither did Alvin, 2d, design to wound your feelings; but, appreciating your embarrassment under Concilium's criticism, sought to render you assistance.

We are satisfied that, upon proper reflection, you will reconsider your hard feelings towards us.

**RATES OF POSTAGE.**

In consequence of the general ignorance in the South of the rules of postage established by law, many letters of importance are daily lost to those interested by being improperly or insufficiently stamped. The regulations require that all such letters dropped into post offices shall be immediately forwarded to the Dead Letter office, where they are never heard from unless they contain money, or other enclosures of value. We give below some information which may prevent vexation to correspondents:

The rate of postage on letters within the United States is 3 cents for every letter or sealed package weighing one half ounce or under. Those over one-half ounce, 5 cents; and 3 cents for every additional half ounce. Prepayment with stamps in all cases is required. All letters without the necessary postage stamps, or which are stamped with revenue stamps, will be forwarded to the Dead Letter office immediately after being dropped into any post office.

Postage stamps issued prior to 1850 are worthless, and will not answer for present purposes.

We know that our "typo" will receive the congratulations of the entire community, while the gifted Lillian will be cordially welcomed to our midst.

The experience of our friend as a printer will render unnecessary the usual warnings about "pressing his forms" and "working off the smaller editions." We hope his "fat take" may prove a comfort in his 'embrace,' and that printing and poetry may mingle harmoniously.
